The students are requested to confirm their participation to respective supervisors, and also intimate the time period when they want to undergo the dissertation work/summer training to their supervisors. **Further correspondence, if any, may be made with the respective supervisor.**

Since the Institute is encouraging a large number of students from various universities/departments for training, it will not be possible for the Institute to provide you with the accommodation. **The students have to make their own arrangements for stay, and also the Institute will not provide any sort of financial support to them to carry out their work.**

It is also very important to note that students are not allowed to carry out analysis of their own samples on the instruments available in the Institute for dissertation work.

Keeping in view the cost constraints being spent by the Institute in running the various instruments it is a request to all the Supervisors to train the students on their own samples or on the available data with them instead of analyzing the samples brought by students with them. The supervisors are requested to strictly adhere to these norms.

Thanking You

Dr. R. K. Sehgal
