Research Topics

- Rock magnetism and Environmental magnetism
- Paleomagnetism
- Paleointensity and Archeointensity
- Anisotropy of magnetic susceptibility (AMS)

Educational Qualification

• **2021:** Ph.D. (Geology), Osmania University, Hyderabad and CSIR-NGRI, Hyderabad.

Ph.D. Thesis Title: Paleomagnetism, rock magnetism, and paleointensity studies of Rajmahal and Sylhet Traps, India.

During Ph.D., I developed an interest in understanding the geodynamic processes operational during the early Cretaceous time. The rock magnetic study of ~117 Ma old Rajmahal and Sylhet Traps basalts (India) reports the dominant magnetic mineralogy carried by magnetite, fine-medium grain size, and PSD domain state that stood useful for the rock's further usefulness and suitability in experiments like paleomagnetism and paleointensity. The paleomagnetic study suggested the southern hemispheric position of the Indian Plate during ~117 Ma, a highly reliable paleopole from this region, strengthening the apparent polar wander (APW) path for the Indian Plate. The paleointensity study of these rocks documented the low strength of Earth's magnetic field during the early Cretaceous (and Cretaceous normal superchron; CNS). The anisotropy of magnetic susceptibility (AMS) tool was used to understand lava/magma flow dynamics and estimated the best possible feeder zone, i.e., the Comei-Cona region of southern Tibet, for the emplacement of these rocks on the Indian Plate. Apart from my Ph.D. work, I gained experience in environmental magnetism where the rock magnetic properties of soils and dust were analyzed to comment on the environmental pollution caused by anthropogenic activities.

- 2014: M.Sc. (Geology), Department of Geology, Savitribai Phule Pune University, Pune.
 M.Sc. Dissertation Thesis Title: Hydrogeological investigations of Kalas watershed: a case study from Indapur tehsil of Pune district.
- 2012: B.Sc. (Geology, Physics, Chemistry), NES Science College, SRTM University, Nanded.

Professional Experience

- **05/2022- Present:** Scientist 'B', Wadia Institute of Himalayan Geology, Dehradun.
- **11/2021- 04/2022:** Senior Project Associate, CSIR-NGRI, Hyderabad.
- 03/2016- 05/2021: Ph.D. Scholar, Osmania University and CSIR-NGRI, Hyderabad.
- **12/2014- 03/2015:** Field Executive, Spectra GeoServices Pvt. Ltd., Hyderabad.
- 08/2014- 11/2014: Visiting Lecturer, MGM's College of Engineering, Nanded.

Lectures/Fellowships/Awards

- 2022: Delivered an E-lecture in a webinar organized by the Department of Geology, Parul Institute of Applied Sciences, Parul University, Gujrat.
- 2018: CSIR-Senior Research Fellowship (CSIR-SRF)
- 2016: Awarded 'Best Oral Presentation' at INGWC-2016
- 2016: Qualified CSIR-NET with Junior Research Fellowship (CSIR-JRF)
- 2015: Qualified in Maharashtra State Eligibility Test (MH-SET) for Assistant Professorship

Supervision

- M.Sc./M.Tech. Dissertations: 05
- Summer/Winter Trainings/Internships: 04

Collaborations inside WIHG

- Dr. Anil Kumar
- Dr. Subhojit Saha

Collaborations outside WIHG

- Dr. M. Venkateshwarlu (Senior Principal Scientist), CSIR-National Geophysical Research Institute (NGRI), Hyderabad, India.
- Dr. S. J. Sangode (Professor & Head), Department of Geology, Savitribai Phule Pune University, Pune, India.

Research Training

- Mar. 12-21, 2018: CSIR Integrated Skill Initiative "Advanced Training Program on Analytical Geochemistry" at CSIR-NGRI, Hyderabad, India.
- Nov. 26-30, 2018: The Indo-French School cum Conference on "Molecular Magnetism in Natural Systems" at IISc, Bengaluru, India.

Conferences/Conventions/Seminars attended

<u>2019</u>

 <u>M. R. Kapawar</u> and M. Venkateshwarlu, 2019. Determination of lava flow direction and possible fissure locale by Anisotropy of magnetic susceptibility study of Rajmahal Traps basalts, India. 3rd National Geo-Research Scholars Meet (NGRSM) at WIHG, Dehradun, India.

<u>2017</u>

- <u>M. R. Kapawar</u> and M. Venkateshwarlu, 2017. Rock Magnetism and Anisotropy of magnetic susceptibility (AMS) investigations on Sylhet Traps, Shillong Plateau, NE India. 9th Association of Exploration Geophysicists (AEG) Convention at BHU, Varanasi, India.
- <u>M. R. Kapawar</u> and M. Venkateshwarlu, 2017. New Paleomagnetic results on Sylhet Traps, Shillong Plateau, NE India. 54th Indian Geophysical Union (IGU) Convention at CSIR-NGRI, Hyderabad, India.

<u>2016</u>

 <u>M. R. Kapawar</u>, Bhavana Umrikar and P. D. Sabale, 2016. Groundwater quality and its suitability for domestic and agricultural use: A study in Kalas watershed from Indapur tehsil, Pune district, Maharashtra. 1st Indian National Groundwater Conference (INGWC) at JNTU, Hyderabad, India.
